MESSAGE FROM THE FOUNDERS

David Nour El Din

Antoine Moussali

Dear Partners and Clients,

At Sineo Packaging, we are driven by a relentless pursuit of excellence and a deep commitment to our customers. Our journey began in China, where we developed expertise in manufacturing, logistics, and packaging. This foundation has been crucial as we expanded to the United Arab Emirates, positioning ourselves at the heart of a global hub and enabling us to serve the international market with greater agility and reach.

As we advance and evolve in the packaging industry, our focus remains on delivering innovative and high-quality solutions tailored to meet your specific needs. Our dedication to precision, sustainability, and customer satisfaction continues to define our approach. Every product we offer reflects our promise to provide exceptional quality and consistency, ensuring that your packaging needs are met with the utmost care.

We value the trust you place in us and are excited about the future possibilities as we continue to grow and innovate. Our team is dedicated to supporting your success and we look forward to strengthening our partnership with you in the years to come. Thank you for your ongoing support and confidence in Sineo Packaging.

Warmest regards,

David & Antoine

ABOUT US

Sineo Packaging Manufacturing is a leading supplier of sustainable packaging solutions for the F&B sector, worldwide. Founded in 2015 in Shanghai as a division of Sineo International, our founders leveraged years of experience and connections to introduce the first eco-friendly packaging to the GCC. In 2017, Sineo Packaging established itself in the United Arab Emirates, and in 2019, became a joint venture with AW Rostamani Group. By 2023, our state-of-the-art manufacturing facility was launched in Dubai Industrial City. Strategically located in the UAE, our facility allows us to efficiently cater to wide regions and diverse markets, ensuring shorter transit times and optimal service delivery. Our comprehensive logistics management guarantees a seamless, hassle-free experience from production to delivery.

Our commitment to sustainability is at the core of everything we do. We pride ourselves on developing innovative, food-safe and eco-friendly packaging solutions that **protect your food whilst preserving our planet!** With a focus on reducing environmental impact, Sineo Packaging is your trusted partner in achieving business success whilst contributing to a greener future. Currently, we offer a variety of recyclable, biodegradable, and compostable packaging options worldwide, with the ability to customize packaging with our 6-color flexographic printer, meeting diverse branding needs!

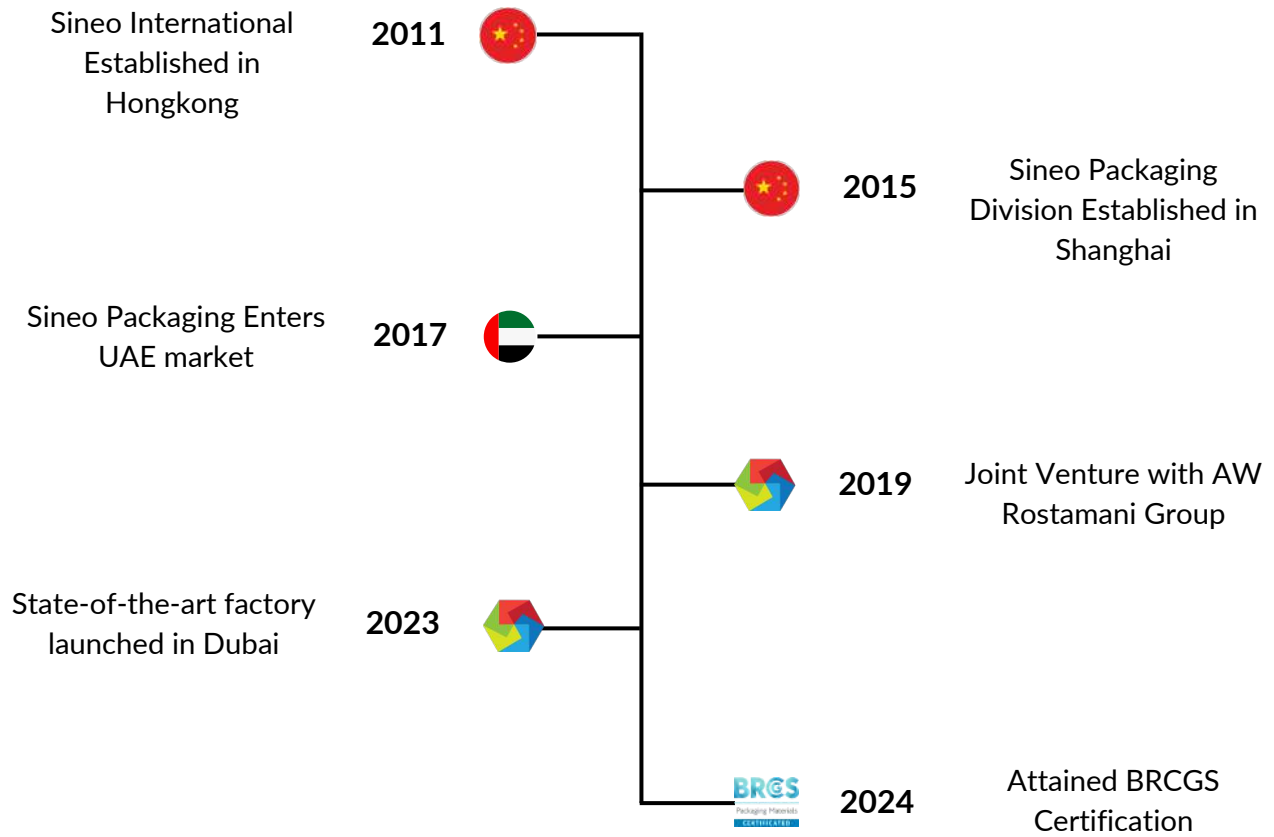

CERTIFICATIONS

As Dubai-based manufacturers, we are certified by the UAE's Emirates Conformity Assessment Scheme (ECAS) which ensures local and international compliance with MOIAT's Quality Management System.

Moreover, we uphold the highest international standards against the global industry benchmark throughout every stage of production. We successfully obtained BRCGS, a GFSI recognised certification, within the first 6 months of launching our factory in Dubai. This demonstrates our quality assurance, our legal compliance and authenticity.

OUR VALUES

SUSTAINABILITY

Our dedication to sustainable practices across the entire supply chain is reflected in our sourcing, manufacturing processes, employee practices and final outputs. We are dedicated to reducing our customers' carbon footprints, operating economically and empowering people at every stage.

EMPLOYEE EMPOWERMENT

Our team's comfort is of the utmost importance. Our aim is to create a safe, inclusive and supportive environment built on mutual respect, trust and cooperation, and we're proud to do so with a diverse team of over 15 nationalities of men and women.

RESPONSIBILITY

We take accountability for the impact of our business operations on the planet and our stakeholders. Our dedication to corporate social responsibility is to give back to the community and ensure that every decision is conducted ethically.

CORPORATE STATEMENTS

MISSION

To deliver innovative, sustainable and efficient packaging solutions by leveraging technology, driving integration and exceeding industry standards across all sectors we serve.

VISION

To be a forward-thinking, vertically integrated packaging leader across diverse sectors.

SECTORS WE SERVE

Government
Agencies

Restaurants &
Cafes

Catering
Services

Bakeries

Packaging
Traders

Retail &
E-commerce

Airlines

Hospitals

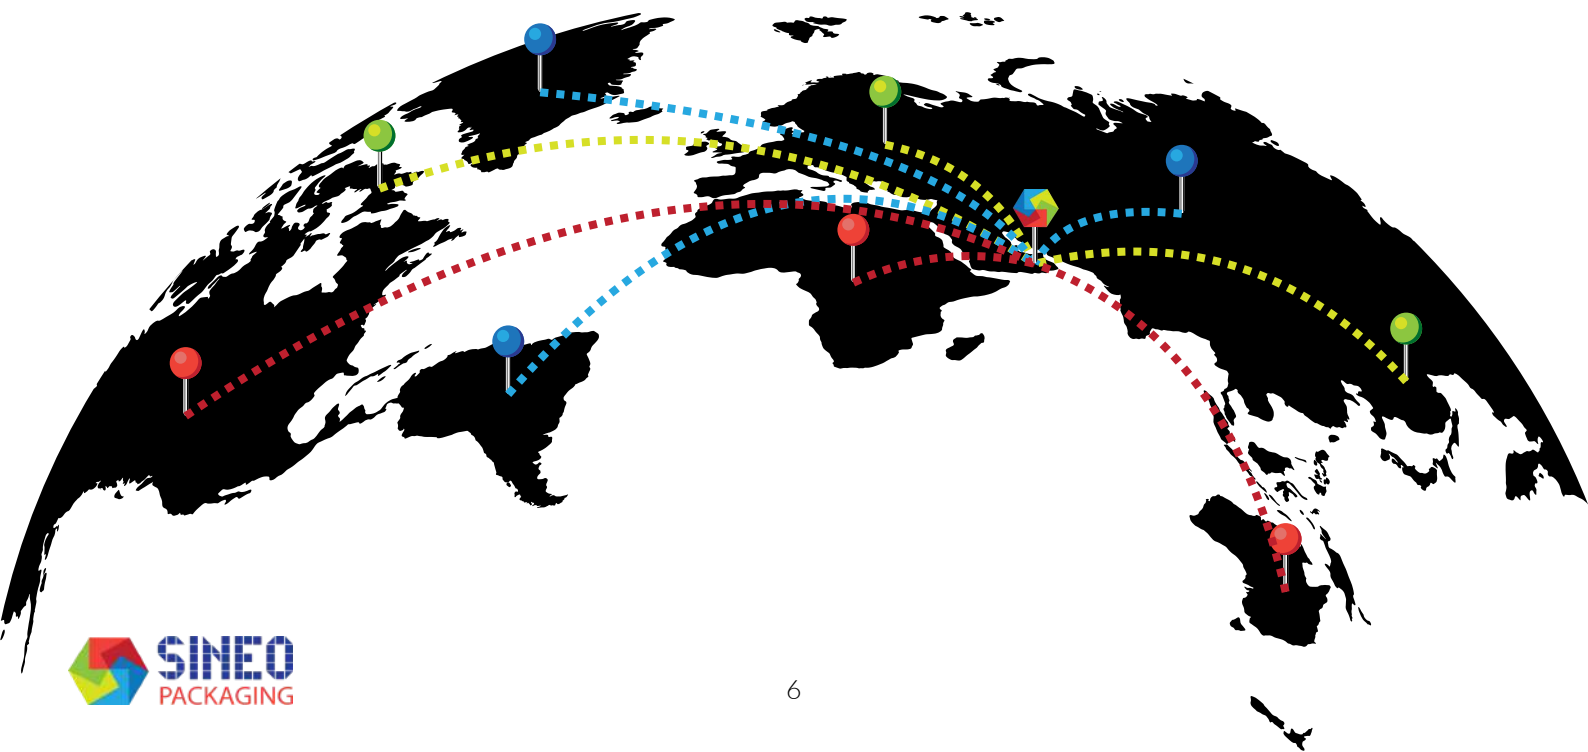

Cloud
Kitchens

Hotels

As leading providers of sustainable packaging solutions across a diverse range of sectors, we specialize in meeting the unique demands of all of our clients. Whether it's a small cafe or a large hospital, our tailored solutions are designed to serve each sector efficiently and effectively. As manufacturers, we also serve packaging traders through our OEM and private labeling solutions.

Our facility's strategic location in the United Arab Emirates enables us to cater to wide regions and diverse markets effectively with shorter routes and transit times. At Sineo Packaging, we also handle all logistics, ensuring a seamless and hassle-free experience for our clients.

MANUFACTURING FACILITY

Sineo Packaging Manufacturing's BRCGS certificated factory is strategically located in Dubai Industrial City, on a 50,000 sq ft facility, equipped with the latest machinery for packaging production and a 6-colour flexographic printer for branding requirements. With a workforce of over 50 people from diverse backgrounds, our 15 high speed productions lines' annual production exceed 400 million units in capacity.

We uphold the highest international standards of hygiene and cleanliness throughout our factory to ensure a safe and sanitary working environment. Our facility is equipped with excellent air conditioning and maintains optimal working conditions, reflecting our commitment to the well-being and comfort of our employees.

RAW MATERIALS

All of our raw materials are procured sustainably and ethically to ensure the highest standard of quality. Whilst preventing leakage, the bio-coat lining on our compostable packaging protects your health as well as the environment.

Alternatively, our PE (and double PE) lining, made from recyclable polyethylene, is known for its durability and endurance as well as its' environmental aspects for reduction of carbon footprint. The certified food-safe lining provides a grease-proof, leak-proof and freezer safe surface and is available in white, brown and can be customised in any colour of your choice!

CUSTOMISATION

6-COLOUR FLEXOGRAPHIC PRINTER

At Sineo Packaging, our customization capabilities are enhanced by our state-of-the-art 6-colour flexographic printer, allowing us to print your artworks with precision and vibrant detail.

Whilst serving your meals in sustainable packaging enhances your brand by itself, one of the many advantages of using kraft paper packaging solutions is that it's fully customisable! We use non-chemical, food-grade ink, ensuring that our prints are not only high-quality, but also safe for food packaging. This combination of advanced printing technology and water-based ink ensures that your packaging stands out whilst maintaining the highest standards of safety and sustainability!

HOW IT WORKS

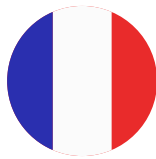

- STEP 1  Contact our sales team
- STEP 2  Share your design with us
- STEP 3  A digital mock-up of your design will be shared for your approval
- STEP 4  Once approved, we begin production
- STEP 5  Your sustainably branded packaging is ready for dispatch!
- STEP 6  Serve your meals in your eco-friendly packaging, especially customised for you!
